

POSITIVO S300

DESIGNED BY THE MARKET, FOR THE MARKET

Positivo Tecnologia: Leadership in payment solutions

Founded in 1989, **Positivo Tecnologia is one of the largest Brazilian companies in the technology sector**, offering a wide range of products and services, from computers to electronic security solutions and educational technologies. Headquartered in Curitiba (PR), with offices in São Paulo (SP) and factories in Ilhéus (BA) and Manaus (AM), its presence extends internationally to countries such as Argentina, Kenya, Rwanda, China and Taiwan, with brands such as Positivo, Positivo Casa Inteligente (IoT), Positivo Servers & Solutions, PositivoSEG, VAIO, Infinix and Educacional.

SmartPOS market, Positivo Soluções em Pagamentos stands out for its innovation and focus on solutions that simplify its clients' businesses. Its success is driven by the application of advanced knowledge, especially in the development of Android devices adapted to market demands, ensuring high performance and functionality.

Furthermore, the company demonstrates its competence in manufacturing electronic devices aligned with global trends, understanding local demands. These strategies consolidate Positivo Tecnologia as a reference in the market, providing innovative and quality solutions that meet customer needs **and dictate changes in the global payments technology scenario.**

Line S

- Designed with the utmost care and attention to our customers' needs. Combining modernity, practicality and excellent value for money, we offer a solution that exceeds expectations. Enjoy a truly customer-centric experience, where every detail has been designed to meet your needs.

S300 DESIGNED BY THE MARKET, FOR THE MARKET

- Setting a new benchmark in the market, the S300 combines top-tier SmartPOS configuration with the extensive expertise gained from THE Linux legacy, which has successfully supported the diverse needs of retail over the years
- Compactly designed for easy handling, this device meets all the usability and accessibility standards required for an Android machine.
- Featuring a connector-free battery, it offers a more robust, user-friendly, and error-proof experience, making it accessible to anyone.
- This machine is set to replace legacy systems entirely at a competitive price, catering to a wide range of establishments..
